

EMPIRE PLATE

1. **Design** a plate about the British Empire from **one** of these two interpretations.

You can choose either

- (a) A **1970s** interpretation of the British Empire, or
- (b) A **Contemporary** interpretation that a modern day historian might agree with.

2. **Label** your design around the outside of the plate so your teacher knows what your drawing and symbols are supposed to be.

3. **Explain** your design and why it fits with that interpretation.

This wouldn't be enough. You would need to explain what it was about the 1970s that meant they would have felt ashamed of the Empire. What had been happening to make them think that?

This shows Britannia crying because some people in the 1970s felt ashamed of the Empire.
