Manager Sarah  
Millington on  
01773 857514 or  
[sarah.millington@bandk.co.uk](mailto:sarah.millington@bandk.co.uk)

Welcome to the first newsletter from Bowmer + Kirkland, the contractor responsible for the partial redevelopment of Sawston Village College.

## Project Information

The scheme involves the demolition of existing ancillary buildings followed by the construction of a new, two-storey teaching block and the remodelling and refurbishment of the existing sports centre and The Marven Centre. The project also involves the formation of a new car park within the main entrance with a bus turning circle and waiting bays.

We will be carrying out enabling works from June 25th which will continue for ten weeks. This includes construction of the bus bays on the current car park at the front of the college, installing an attenuation tank for surface water storage at the front of the playing field and fencing off the construction site in readiness for the schools return in September.

During August we will create a site compound on the playground and the front of the field with temporary access routes around this. The construction of the new teaching block will start in September.

We thank you in advance for your patience and understanding during the construction process. We will keep you updated on forthcoming works with regular newsletters.

If you have any questions or comments please contact the project manager below. Alternatively, send us a comment about this site, scan the QR code (right), and send us your message or text (including the site ID number 09906) to 07400 334 880.

## Considerate Constructors Scheme Code of Practice

**CONTRACTOR  
AND SUPPLIER  
PARTNER**

**CONSIDERATE  
CONSTRUCTORS  
SCHEME**

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

### Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

### Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

### Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
